If you are new to our community, we welcome you and hope to meet you at one of our community events.

Pool News

Plans are underway to renovate the Vestlake pool in 2026. The work should begin in early August. (Note, the pool will likely close earlier this year to get the project underway and ready for next spring.

Contractor GMC is working on the final plans, getting quotes, and permits from the proper authorities so that the pool will be ready for Spring 2027.

The plans include resurfacing both pools, widening the access into the pool, expanding the pool deck and replacing the fence.

Another great addition is the outdoor grilling area within the perimeter of the fence.

The Board is excited about having this project underway and will be sharing the drawings once they have been finalized.
