

The Lakes Committee and the Liberty Park Master Association diligently monitor the health and appearance of our lakes to keep them the beautiful asset that they are in Liberty Park. Spring is a great time to introduce your family to fishing but there are some important rules for fishing in Liberty Park:

- Lakes are for members only and their guests. Guests must be with the members when fishing in the lakes.
- All watercraft, canoes, boats, etc. must be registered with Liberty Park. Please contact libertypark@nhmlc.org to have your watercraft registered.
- Hang tags should be visible when parking at one of the lakes. If you need a hang tag, please email libertypark@nhmlc.org.
- No live bait is permitted in the lakes.
- No cast nets are allowed. These are generally used to catch minnow to use as live bait which is not permitted.
- Removing the grass carp is not permitted. The grass carp are used to keep control of the aquatic vegetation of the lakes and ponds.
- Pumping water out of the lakes is not permitted. If you have a pipe going into the lake, please remove it or cut the pipe where it is evident that pumping is not occurring.
