

Williams Digital

WEBSITE DESIGN & DEVELOPMENT AGREEMENT

WeAddALogo

Custom website, online store & custom-order system

Provider

Williams Digital
Dylan Williams · Birmingham, Alabama
Dylan@williamsdigital.io

Client

WeAddALogo LLC
Cindey Huckabee · Leeds, Alabama
cindey@weaddalogo.com

Date

August 18, 2026

1. The Project

Williams Digital will design, build, and launch a custom website and online store for WeAddALogo LLC ("WeAddALogo"). The goal: a professional storefront where customers can buy and personalize your retail products online, and where businesses, teams, and organizations can request quotes for custom embroidery and DTF work.

2. What's Included

- **Custom-designed website** — Home, Shop, Custom Orders, Services (Embroidery / DTF / Alterations), About, and Contact. Designed for WeAddALogo around your logo and photography — not a template.
- **Online store** — your full retail lineup (no product limit) with sizes, colors, placements, and personalization options, with secure online checkout.
- **Custom-order system** — a quote request form with artwork/logo upload that delivers each request to your email, so commercial and bulk jobs never get stuck in a shopping cart.
- **Order numbering** — every retail order carries a WeAddALogo order number (WAL-####) in your payment records.
- **Mobile-first build** — the full experience is designed and tested for phones as well as desktop.
- **Launch on your domain** — connected to your existing domain, with basic search-engine setup for "custom embroidery Leeds, Alabama" searches.

3. Payments & Your Stripe Account

Customer payments are processed through **Stripe**, a payment platform used by millions of businesses. The most important principle of this agreement:

Your store. Your money. The Stripe account belongs to you, and every customer payment deposits directly from Stripe into your bank account. Williams Digital never collects, holds, or has withdrawal access to your revenue at any point.

Setup happens in this order:

- 1 You create your Stripe account** at stripe.com in your name (or your business's name). Williams Digital will walk you through it — it takes about 15 minutes.
- 2 You link your bank account** and complete Stripe's identity verification, so payouts deposit directly to you.
- 3 Once your account is verified and connected to your bank, you add Williams Digital** (Dylan@williamsdigital.io) as a team member on your Stripe account so we can set up your products, connect the website's checkout, and configure order notifications.
- 4 We build and test checkout.** Williams Digital's access is used for setup and support only. You remain the account owner, you can see everything we do, and you may remove or reduce our access at any time after launch.

Stripe's processing fee (currently about 2.9% + \$0.30 per online sale) is deducted by Stripe automatically from each transaction. There is no monthly Stripe fee — you only pay when you make a sale. Williams Digital receives no portion of your sales.

4. What We Need From You

- Your logo, product photos, and examples of finished embroidery/DTF work.
- Your product lineup — as many products as you want to launch with — with prices, sizes, colors, and personalization options.
- Login access to your current Squarespace account so we can connect your domain to the new site.
- Your Stripe account created, verified, and connected to your bank, with Williams Digital added as a team member (Section 3).
- Timely feedback during the build — a reply within 2 business days keeps the schedule on track.

5. Investment

ITEM	WHEN	AMOUNT
Deposit — reserves your build slot and begins design & development	On signing	\$600
Launch payment — due when the site is approved and goes live on your domain	At launch	\$600
Website Care Plan — hosting, security & software updates, checkout monitoring, support, and one product-lineup rotation per month (swap products, prices, photos)	Monthly, starting at launch	\$30/mo

Deposit payment link: buy.stripe.com/7sY7sL9HQc1Q8ilcU0cfK10 — secure card payment via Stripe. Prefer check or another method? Just ask.

The Care Plan continues month to month and either of us may cancel it with 30 days' written notice. If it's canceled, Williams Digital will hand over the complete website files and assist with moving hosting; ongoing hosting then becomes the Client's responsibility.

6. Timeline

Target launch is **7 days** from the date Williams Digital has received all items in Section 4 — content, Squarespace access, and Stripe access. Days waiting on content, feedback, or account access pause the clock; they don't count against the 7 days. Checkout work specifically cannot begin until Stripe team access is granted.

7. Revisions

The project includes **two rounds of revisions** to the design before launch. Additional revision rounds or new features beyond Section 2 are happily quoted separately before any work begins — no surprise charges, ever.

8. Ownership

Upon final payment, the Client owns the finished website — its design, content, and code — along with the domain, the Stripe account, and all customer and order data, which belong to the Client at all times. The Client

warrants that content provided (logo, photos, artwork) is owned by or licensed to the Client. Williams Digital may display the finished project in its portfolio.

9. Not Included

- Photography, logo design, or copywriting beyond light editing of provided content (available separately).
- Inventory management, shipping-label systems, or marketplace/Shopify migration (available as a future phase if the store outgrows V1).
- Stripe's per-transaction processing fees, domain registration renewals, or email marketing platforms.

10. The Fine Print

- **Cancellation.** Either party may cancel before launch with written notice. The deposit is non-refundable once design work has begun; work completed beyond the deposit's value will be billed proportionally.
- **Warranty window.** Williams Digital will fix any defects in the delivered work reported within 30 days of launch at no charge.
- **Liability.** Williams Digital's total liability under this agreement is limited to the fees actually paid by the Client. Neither party is liable for indirect or consequential damages, or for outages of third-party services (Stripe, hosting providers, domain registrars).
- **Relationship.** Williams Digital is an independent contractor, not an employee, partner, or agent of the Client.
- **Governing law.** This agreement is governed by the laws of the State of Alabama.
